PROFILE

Creative and detail-oriented instructional designer with nine years of experience in developing dynamic training for government and commercial clients. Adept at analyzing, designing, and developing learning curriculum to provide comprehensive learning experiences that resonate with adult learners to support their professional development.

WORK EXPERIENCE

USAA
2022 - PRESENT
Instructional Design Contractor

- Design and develop interactive facilitator-led and online training modules to fulfill learning needs
- Worked with team to produce web-based simulations and facilitator-led instruction as a part of USAA's Retool effort
- Analyze and organize course content to develop training curriculum for the business
- Develop learning objectives, storyboards, and design documents to target business goals
- Provide regular editorial reviews for peer contract designers to ensure consistency, quality, and adherence to learning content standards
- Experience working with Zenarate

Deloitte Consulting, LLC
2016 - 2022
Instructional Design Consultant

- Agile and ADDIE methodology experience
- Delivered top-quality eLearning modules
- Facilitated focus groups to identify learning gaps and needs
- Managed and maintained LMS and SCORM components
- Developed web-based system training for package solutions (i.e. Workday, Cerner)
- Created employee/staff awareness plans for training rollouts
- Provided project management support for large scale implementations
- Supplied back-end support for all project workstreams
- Served as a conduit to the client and the project team to field questions or needs
- Facilitated regular cross-workstream status meetings
